

"DISTANT RIDGES" PAINTING

★ Work from the top to the bottom, always using a hard edge on top of each ridge and a soft edge on the bottom of each ridge.

1. Sky (you could add clouds with a thirsty brush)
2. Farthest ridge (lightest)
* soften bottom edge with clean water
3. Middle ridge (darker)
4. Foreground (darkest) Try a tree, rock or grass. Scrape! Salt! Alcohol! Mess around!
